

QS-Barcode SDK 4.8 Recognition – Price List / Order Fax

QS QualitySoft GmbH offers effective software for recognizing barcodes from digital images or Adobe PDF-Files. Please read our latest product information at http://www.qualitysoft.de/en/produkte/qs_barcode.htm

Availability

The “QS-Barcode SDK” software is available as a developer library (C-Lib, DLL and OCX). Our customers include developers who wish to integrate barcode reading ability into their own programs. Integrating functions is very easy and quickly performed. After defining a few parameters (type, position of barcode), the image is transferred and the recognition function is performed. A result structure displays the read results and additional information about the barcode. In addition to the library, “QS-Barcode SDK” contains a test program and sample codes in C++, Visual Basic, Delphi, MS-Access and C# to demonstrate library integration.

Licensing

The SDK (Software Development Kit) and one developer license for each developer workplace is required to integrate “QS-Barcode SDK” into your application. In addition, you need one runtime license for each user workplace to distribute your application containing “QS-Barcode”. SDK includes one developer license and one runtime license.

Versions

“QS-Barcode SDK“ is available in different versions to recognize various barcode types

- linear barcodes (L=Linear)
- PDF417 barcodes (P=PDF417)
- Data Matrix barcodes (D=Data Matrix)
(ECC000, ECC050, ECC080, ECC100, ECC140 and ECC200)
- QR Codes (Quick Response Code) (Q=QR Code)
- Aztec Codes (A=Aztec Code)

and in combinations:

- linear and PDF417 barcodes
- linear and Data Matrix barcodes
- linear, PDF417 and Data Matrix
- linear, PDF417, Data Matrix, QR Code, Aztec or other combinations.

Use our freeware program **bcTester** (<http://www.bctester.de>) to check whether your barcodes are readable with “QS-Barcode SDK”.

If the program cannot recognize your barcodes, mail the images to us at support@qualitysoft.de and we will analyze the problem free of charge with no obligation!
